AMENDMENTS TO THE CLAIMS:

This list of claims will replace all prior versions and listings of claims in the application:

Listing of Claims:

- B.L.
1. <sup>Previously Presented</sup>  
(~~Currently Amended~~) A remote signaling receiver system comprising:

a first transmitter device that generates at least a first wireless communication signal;

a second transmitter device that generates at least a second wireless communication signal; and

a receiver that receives the first and second signals, the receiver including a first ASK demodulator for processing the first signal and a second demodulator for processing the second signal, the second demodulator is not affected by amplitude modulation on the second signal, the receiver is programmed to process all received signals using the first ASK demodulator and only when a received signal is not discernible from an output of the first ASK demodulator to process the received signal using the second demodulator.

2. (Previously Presented) The system of claim 1, wherein the second device and the receiver are supported on a vehicle and the second signal provides information regarding a condition of a selected vehicle component.
